DETAILED ACTION

1. The finality of the last office action is withdrawn because the office failed to notify the applicant that the response mailed July 19, 2005 was missing the applicant's signature.

Drawings

2. INFORMATION ON HOW TO EFFECT DRAWING CHANGES

Replacement Drawing Sheets

Drawing changes must be made by presenting replacement sheets which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments section, or remarks, section of the amendment paper. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). A replacement sheet must include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and within the top margin.

Annotated Drawing Sheets

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheet(s) must be clearly labeled as "Annotated Sheet" and must be presented in the amendment or remarks section that explains the change(s) to the drawings.

Timing of Corrections

Art Unit: 2876

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings MUST be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

Specification

3. The disclosure is objected to because of the following informalities: it contains numerous typographical errors, grammatical errors, and punctuation errors. The applicant's cooperation is requested in correcting all errors of which applicant may become aware in the specification.

4. The pages of the specification including claims and abstract must be numbered consecutively, starting with 1, the numbers being centrally located above or preferably below the text.

Claim Objections

5. Claims 1-4 are objected to because of the following informalities:

Re claim 1: Substitute "the interval needed" with -- an interval needed -- (see line 4).

Re claim 1: Substitute "prepaid card" with -- prepaid credit card -- (see line 4).

Re claim 1: Substitute "the card" with -- the prepaid credit card-- (see line 5).

Re claim 2: Substitute "the process" with -- The process -- (see line 1).

Re claim 3: Substitute "the process" with -- The process -- (see line 1).

Re claim 4: Substitute "a system" with -- A system -- (see line 1).

Re claim 4: Insert a colon after the term "containing" (see line 1).

Re claim 4: Insert -- prepaid -- before the terms "credit cardholder" (see line 2).

Re claim 4: Insert -- prepaid credit-- before the term "card" (see line 3).

Appropriate correction is required.

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

7. Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Risafi et al (US 6,473,500) (hereinafter Risafi).

Risafi teaches a system and method for using a prepaid card comprising a consumer for purchasing a prepaid card for a particular amount of money either at a point-of-sale location (merchant), at an ATM, at any designated/approved card-dispensing device, or from a card issuer or designated agent of the card issuer. The prepaid card is activated when the consumer purchases the card. The consumer then selects a personal identification number (PIN) for the purchased card. The activated card is used for making purchases at a wide variety of approved establishments, merchants, or via the Internet. The system is useful for consumers who do not have credit/bank cards and who do not want to incur credit card debt. (See col. 6, line 38 to col. 7, line 67)

Response to Arguments

8. Applicant's arguments filed 19 July 2005 have been fully considered but they are not persuasive.

In response to applicant's argument that the reference fails to teach a card having a picture and/or fingerprint stored on the card, the Examiner agrees that the Risafi reference fails to teach a prepaid card having a picture and/or fingerprint stored on the card. However, the claim limitation recites a system having "means for allowing a credit cardholder to remain anonymous or have photo and/or fingerprints inputted for identification purposes...". The use of the term "or" requires the Examiner to find one of the limitations recited. Therefore, the Examiner believes that the Risafi reference meets the claimed invention because the Risafi reference teaches a system for purchasing prepaid cards, wherein the system allows a consumer to remain anonymous and avoid going through traditional credit card approval process.
